

STATE OF IDAHO
OFFICE OF THE SECRETARY OF STATE
BEN YSURSA

Vote, It's Your Right!
An important message from
Secretary of State Ben Ysursa

Election Day will be very busy at the polls. Voters can register and vote before Election Day to avoid the lines at the polls. Contact your county clerk for complete information on **early voting**. A list of county clerks is available at idahovotes.gov, the official voting information website.

Voters have several accessible voting options:

- Vote absentee by mail.
- Vote absentee in person before Election Day at an absentee polling place (early voting).
- Vote with the assistance of a person of the voter's choice.
- Curbside assistance at the polls and home voting are available under special circumstances.

Polling places in Idaho are accessible to all voters.

For those voters that have difficulty seeing or marking a ballot, a ballot marking device is available at all polling sites. Visually impaired voters can use headphones to listen to the ballot and make their selections with a Braille keypad. The ballot marking device also has a zoom feature to enlarge the print on the ballot.

Participation is the essence of democracy. Vote November 4th.
It's your right!

Ben Ysursa,
Secretary of State
